Young Americans Bank

A real bank specifically designed for kids

Of the 15,000 accounts at Young Americans Bank, more than 90 percent are savings accounts with an average balance just over \$550. Why? Because education, not profit, is the Bank's mission.

Young Americans Bank also has a unique set of customers: all kids!

Young Americans Bank was founded in 1987 by cable pioneer, Bill Daniels, who believed that young people who understand and have access to our financial system would become "more responsible, productive adults who are better equipped to utilize the options inherent in our free enterprise system."

Young Americans Bank, the *only* bank in the world specifically designed for young people 21 and under, is state-chartered and FDIC-insured. It offers a full range of services - from savings and checking accounts, to loans and credit cards—all with an educational focus.

More than 65,000 young people from all 50 states and a dozen foreign countries have had accounts at Young Americans Bank, gaining hands-on experience with real banking products.

At Young Americans Bank, the accounts may be small, but the life lessons are huge!
